Training Description

This training builds upon the 1-day Mindfulness experience, to offer in-depth experiences targeting mindfulness, meditation, wellness, wellbeing, self-care, personal growth, etc. There are more than 30 techniques and horse interactions to support repeat clients and multi-day programs and retreats. These interactions go deeper into experiencing horses as spiritual beings and understanding the many ways they energetically support us. These interactions are divinely inspired to bring energetic grounding, alignment, and heart-centered expansion.

Journey into the hidden realm of horse culture that is unknown to most, where it's revealed that horses are **Master ∞ Energy ∞ Movers**. They move energy to balance and align themselves, their herd, the land, and us. Experience these energetic exchanges, and connect deeper in understanding their messages.

The horse interactions include connection activities, energetic exchanges, breathwork, and meditations. All can be one on one experiences for individual clients or facilitated in a group setting, as experienced during the training. Most interactions involve simply being in the presence of horses where they decide how to interact with us. This is a powerful place where the horses share their sacred gifts.

Experience the expansive presence of horses through:

- Energetic tools to ground, clear, balance, and align both people and horses (energy centers, chakras, meridians)
- Ways to harmoniously engage with horses, which honors their voice and choice
- Methods to strengthen and awaken inner wisdom and intuition, to support facilitating these experiences
- Techniques to give back to the horses to express gratitude for the beautiful gifts they give us

You'll experience these sacred gifts while learning to facilitate these experiences for your clients' wellbeing of mind, body, and spirit. We guide step-by-step with processes along with providing all the meditation recordings, scripts, activity descriptions, forms, tools, templates, and sample agendas, so you can facilitate your own programs right after the training.

Prerequisites:

- **Complete EAL Academy's 1-day Mindfulness training - Facilitating Mindfulness EAL Programs.** We offer self-study options.
- Experience with safely handling horses on the ground, no riding or driving experience is needed.
- Prior certification is not required, although EAL Academy's 4-day Certification training supports facilitating all types of EAL programs and includes additional activities to use during mindfulness EAL programs along with tools and templates for leading your EAL programs. During the 4-day Certification training we provide tools for managing liability risk, marketing, pricing, selling EAL programs, program planning, and building an EAL business. During this training, these topics are covered at a high level specific to mindfulness and meditation programs with horses.

Additional Event Information
